

# British Heart Journal

*Editor*  
*Assistant*

Editorial: The changing face of acute rheumatic fever *Edwin Besterman*

The nature of the coronary problem. The Strickland Goodall Memorial Lecture 22 October 1969 *A. Morgan Jones*

Effect of respiration on venous return and stroke volume in cardiac tamponade *I. T. Gabe, D. T. Mason, J. H. Gault, J. Ross, Jr., R. Zelis, C. J. Mills, E. Braunwald, and J. P. Shillingford*

Appearance of atrial sound after reversion of atrial fibrillation *Robert A. O'Rourke*

Serum enzyme activities after cardioversion *T. Mandecki, L. Giec, and W. Kargul*

Patterns of endocrine reactivity in patients with recent myocardial infarction. Clinical and biochemical correlations: trial of endocrine therapy *L. Ceremużyński, J. Kuch, L. Markiewicz, J. Lawecki, and J. Taton*

Continuous electrocardiographic recording in Prinzmetal's variant angina pectoris. A report of four cases *M. Guazzi, C. Fiorentino, A. Polese, and F. Magrini*

Idioventricular rhythm complicating acute myocardial infarction *R. M. Norris, C. J. Mercer, and S. E. Yeates*

Precurved catheters for transbrachial coronary arteriography *George G. Rowe*

Electrical interference in non-competitive pacemakers *E. Sowton, K. Gray, and T. Preston*

Natural history of coarctation of the aorta *Maurice Campbell*

Management of pulmonary atresia *Jane Somerville*

Atrial fibrillation in patients with idiopathic hypertrophic subaortic stenosis *D. L. Glancy, K. P. O'Brien, H. K. Gold, and S. E. Epstein*

Repeat variation of electrocardiogram, blood pressure, and blood cholesterol within one hour and six months *Ernst Simonson and Ancel Keys*
